24 January, 2011

Respected Prime Minister,

This is further to my letter to you dated 11 January, 2011 regarding the Press Conference held by Shri Kapil Sibal, Hon'ble Minister of Communications & IT.

As I had mentioned in that letter, the Minister's Press Conference had far ranging implications, including that of undermining the investigation under progress. The Supreme Court has also since commented similarly.

I would not have considered challenging the claims of Mr. Sibal and Mr. Ahluwalia, except for the fact they chose to undermine the CAG, knowing fully well that the CAG cannot respond with a detailed Public defense and also making arguments that have already been made in the Supreme Court. The country deserves to know the truth and not get misled by smooth talking and articulate spin.

So, I have chosen to research and analyze Mr. Sibal's contentions and the subsequent statements by the Dy. Chairman of the Planning Commission. After detailed research and reading of over 1600 pages of various documents, I have prepared a presentation that analyzes Mr. Sibal's claims in his Press conference.

The conclusion, purely based on evidence, is clear for all to see. It lays bare the claims :

- a) That the DoT has followed the TRAI Recommendations (a claim made to me in Parliament by the then Minister as well)
- b) That the CAG report is based on assumptions – There are no assumptions used by the CAG. Only evidence.

I have shared this with the media, and in the interests of transparency, also with the Minister himself, Petitioners of the PILs in court, and political leaders in Parliament, including leaders of the Opposition.

I am enclosing herewith the detailed analysis and annexures for your action. As always, I am available for any further discussions or explanations that you might seek emerging out these documents.

Sincerely,

  
RAJEEV CHANDRASEKHAR

**Dr. Manmohan Singh**  
Hon'ble Prime Minister  
Government of India  
New Delhi
