10 March, 2011

Dear Nandan,

Thank you for sending me the Technology Advisory Group for Unique Projects (TAGUP) Report, which I found very informative and interesting.

In my speech in Parliament during the discussion on the Union Budget 2011-12, I have specifically highlighted the need for the Government to implement the Report's recommendation on the Expenditure Information Network, as a part of a 4-pronged strategy to address corruption and governance issues - which will act as a catalyst for introducing a culture of fiscal responsibility and value for public money within the Government.

Thank you, again, for your continued support.

Yours Sincerely,

RAJEEV CHANDRASEKHAR
