18th August, 2009.

Shri Rajeev

I thank you for your kind words of encouragement. The Unique ID Project is indeed one of the most transformational projects that is being embarked upon with a number of challenges and complexities.

I have noted with great interest your suggestions for the project. It is indeed our endeavour to make this project a truly inclusive project which makes a difference to the lives of the marginalized sections of our society. I could not agree with you more that the architecture of this project should be based on a consultative and transparent process. We intend to involve a number of stakeholders in this endeavour. The UIDAI is also seriously considering a revenue model which will be the fulcrum of the Authority's functioning.

I am extremely grateful to you for your suggestions and would be looking forward for a more detailed discussion in this regard.

I thank you once again for the well wishes and would seek your active support in this momentous task.

With warm regards,

Yours sincerely,

(NANDAN NILEKANI)
