

OFFICE OF RAJEEV CHANDRASEKHAR

MEMBER OF PARLIAMENT

PRESS STATEMENT

FOR IMMEDIATE RELEASE

BENGALURU, 13TH MARCH 2019

PRESS STATEMENT OF MP RAJEEV CHANDRASEKHAR ON THE WHAT WILL BE THE 3 BROAD STRATEGY FOR THE BJP'S CAMPAIGN IN KARNATAKA FOR THE LOK SABHA ELECTION 2019

"Karnataka is very important for the nation to note because currently there are some political parties, Mayawati ji, Mamata Banerjee ji, all of them who are talking about this Gathbandhan or what we in the BJP call "Mahamilawat".

The Karnataka example is a shining example to the rest of the country, on what a "Mahamilawat" does for the benefit of the people, so here are three broad strategies for BJP's campaign in Karnataka:

- 1) **To remind people what the UPA did in 10 years** and what situation they left the country in 2014, high inflation - no growth, high corruption - no benefits to people, high NPA - high frauds, banking system destroyed. This will be put out in the front of people especially when today Rahul Gandhi is trying to make everybody forget about the past of the Congress.
- 2) The performance of Narendra Modi ji's government starting from corruption free governance to a government that has been showing scale, determination and size. In five years, it has launched a series of programs that has touched every person in this country - Middle class to farmer, poor to upper middle class, defense to government servant. It will be about the performance of the Narendra Modi government. **This election is a fight about Narendra Modi Ji's government's development and governance track record versus 10 years of UPA.**

3) This argument of a coalition against Narendra Modi ji, that is bound by nothing but hate for Narendra Modi ji, with no common ideology , no common economic policy , no common governance ideology, has to be shown up and exposed in the context of what the Congress has done with JDS in Karnataka. The Congress was rejected. The people / voters of Karnataka rejected the Congress in 2018 and the Congress has tried to come back into government through the back door using the JDS. That is exactly what a Mahamilawat government will be, that they are trying to propose.

So there's absolutely no doubt in anybody's mind the performance and the track record of Prime Minister Narendra Modi ji's government is there for everybody to see, the opposition with use lies, the opposition will use half truths, the opposition will try and move this to local issue but even then, I tell you, the performance of Narendra Modi ji's Government vis a vis Karnataka, the fund allocation, the railway infrastructure project development in Karnataka , this government is willing to take even that challenge and enter into a debate with this JDS Congress Mahamilawat. So, we have absolutely no doubt as under the leadership of Yeddyurappa ji and other leaders of BJP Karnataka, that the people and voters of Karnataka will give a resounding mandate to MPs who will send Prime Minister Narendra Modi Ji for another term as prime minister. **This election is about will be the prime minister to the next five years."**

FIGHT AGAINST TERRORISM

"The fight against terrorism by the Narendra Modi government is an example of the difference between how the Congress has handled terrorism and terrorists and how the Narendra Modi Government is handled terrorists. That is one example, there are hundreds of examples that we would put in front of people. This election is a fight about Narendra Modi Ji's government's development and governance track record versus 10 years of UPA."
